

Project History

Irving Master Bed & Bath Remodle

Year Completed: 2015

Location: Astoria, OR

Architect: Michelle Dieffenbach

Project Size: 685 Sq. Ft.

This residence sits up on a hill in Astoria with a beautiful view of the Columbia River. The partial second floor was expanded to provide a master bedroom suite with large windows to take advantage of the view. Previously there were no windows on the north side of the second floor providing a view.

The kitchen was remodeled and opened up to the dining room. The main entrance was not visible from the vehicle area. An inviting porch and entrance were provided. The exterior cedar lap siding was salvaged, reused and new matching material purchased for the new exterior walls and to patch rotten areas. This is truly a room with a view.

Prior to addition of second floor master bedroom.

Kitchen prior to remodel.

Exterior prior to addition and remodel.
