

Project History

Hilltop Kitchen Remodel

Year Completed: 2016

Location: Astoria OR

Architect: Michelle Dieffenbach

Project Size: 330 Sq. Ft.

The original kitchen in this home was built by a ship maker, all custom and built to fit. In updating the kitchen area and finishes, pre-built cabinets were used with careful coordination to make it all fit. Plaster ceilings, soffits and walls were saved. The original cabinets handles were refurbished and reused. New modern amenities were provided without losing the feel and function of the old high quality kitchen.
